SPRIGHTLY, PUNGENT, AFFECTIONATE, LIVELY."

FANNY FERN'S heautiful new book, entitled "Fresh
Lavres." bound in bics and gold. Price 75 cents.

"There are seventy-four tales and fugitive pieces in this
volume, ell stamped with the spirit, originality and vivacity of
the author, and which will be read with more satisfaction than
any other work which has emanated from her profile pen."

[Boston Transcript.]

Tanny's style has the vivacity, terseness and epigrammatical liveliness of the French school, while her fanny is as full of genial tenderness, and as teaming with simple dramatic scenes and feeling as the most hearty and idiomatic of English writers. There are some who complain that she is a mere pangraphist, and so she is, and so were Solomon, and Franklin, and Pope, and Montajine, and La Rochefoucauld and Bacon. But it would be an odd objection to make to any author that he compressed into a pragraph the wit which another in vain attempted to diffuse through an essay or a volume. Fanny Fern climbed into a reputation through the greatest difficultes. She wrote in obscure journais, and compelled the world to recognize her genius in spite of the unfortunate chumels through which she addressed it." [New York Courier.

"This handsome brockure contains upward of 200 pages of Fanny Fern's gayest, gravest wittlest and most caustic ensuations. While it does not profess to be philosophical, it is full ophilosophy, of didactice which only a keen-spited woman, whose soul is in her work, can observe and fasten upon the mit do her pupils, her readers, nor is it religious, yet is replete with the truest and most attractive piety."

This is one of her richest publications, briu-fell of life, veried and shouldant."

Published by MASON BROTHERS, New York.

THE SCIENCE OF COMMON THINGS.—
By DAVID A WELLS A. M.
Editer of the "ANNUAL OF SCIENTIFIC DISCOVERY."
I vol., 12ma. 75 cents.
Fresents a clear, concise and satisfactory explanation of the

Presents a clear, concise and satisfactory explanation of the why and wherefore of all the familiar wants and experiences covering in every-casy life. A vest amount of most curious and useful information is conveyed in a most inviting form, which every family and every individual needs to know.

For schools it also furnishes a most attractive and adapted introduction to the study of Physical Science. The several topics are treated in strictly scientific order, yet in popular style. Copious and attractive illustrations are also added. Among the subjects treated are the Laws and Properties of Matter and applications to the Arts; Laws of Fluids and their applications; Climate: Atmosphere, Wind; Heat; Deway Vestilation; Warming; Respiration; Nutrition; Light; Vision; Optical Instruments; Electricity, Magnethan, and their manifold developments and uses, &c.

Though but just published, the work has been very favorably noticed. noticed.

The Publishers' Circular says: "Especial care has been taken to render the facts and principles given full, complete and accurate, and in strict conformity with the very latest results and researches of modern science."

The Scientific American 159:: "After careful examination, we pronounce this the heat book in its line which has ever yet

The Scientific tearners are the periods in its line which has ever yet appeared. It is almost invariably clear and correct and interfered the exposition of principles with many valuable facts relating to each of the subjects treated on."

Life illustrated says: "It contains a vast amount of invaluable information, communicated in a manner so clear, and in language so simple, as to be specially adapted for young stochasts, for scheels and families, "Ac.

The Boston Toursler says: "The well-known general accuracy and superior excellence and scientific value of Mr. Wells's works render commendation superflows. By his efforts, scheme is be oming popular, and through the medium of his various publications the secrets of the universe are being laid open to the commonest intellect." So.

Watches, Jewelry, &c.

AMERICAN WATCHES—To the TRADE.—

A These Watches are made by the aid of new and original mackinery and tools expressly designed to secure with a low price a fine, substantial and correct time-keeper. The movements are new, simple and heaviful in plan and construction, remarkably easy of repair, and have been prenounced by the ablestchronometer and watch makers to be families in principle and quality, and by all who have used them to be reliable in performance. Each one is engraved "Appleton, Tracy & Go, Waltham, Mass," and is accompanied by a cortificate of genulacies and perpetual warranty over our written signature. We sak no man to buy these Watches merely because they are of American manufacture. We sak only that this feet shall not be permitted to exclude them from consideration. We claim that Watches equal in quality and merit cannot be obtained so cheep in Europe; and we sak our countrymen to give these a trial under our warranty.
